

# HERE IS ALL YOU NEED TO PLAN YOUR NEW KITCHEN

## Start by Measuring Your Kitchen Space

We are experts in kitchen design. We'll customize a new kitchen for you, building in beauty, convenience and a wealth of storage space. Just show us a diagram of the kitchen.

## The Diagram is Easy

All you need is a tape measure, a pencil and a piece of paper. Just be sure you get all the measurements written down. The rough drawing you do of your kitchen space will look like this.

### Start Here

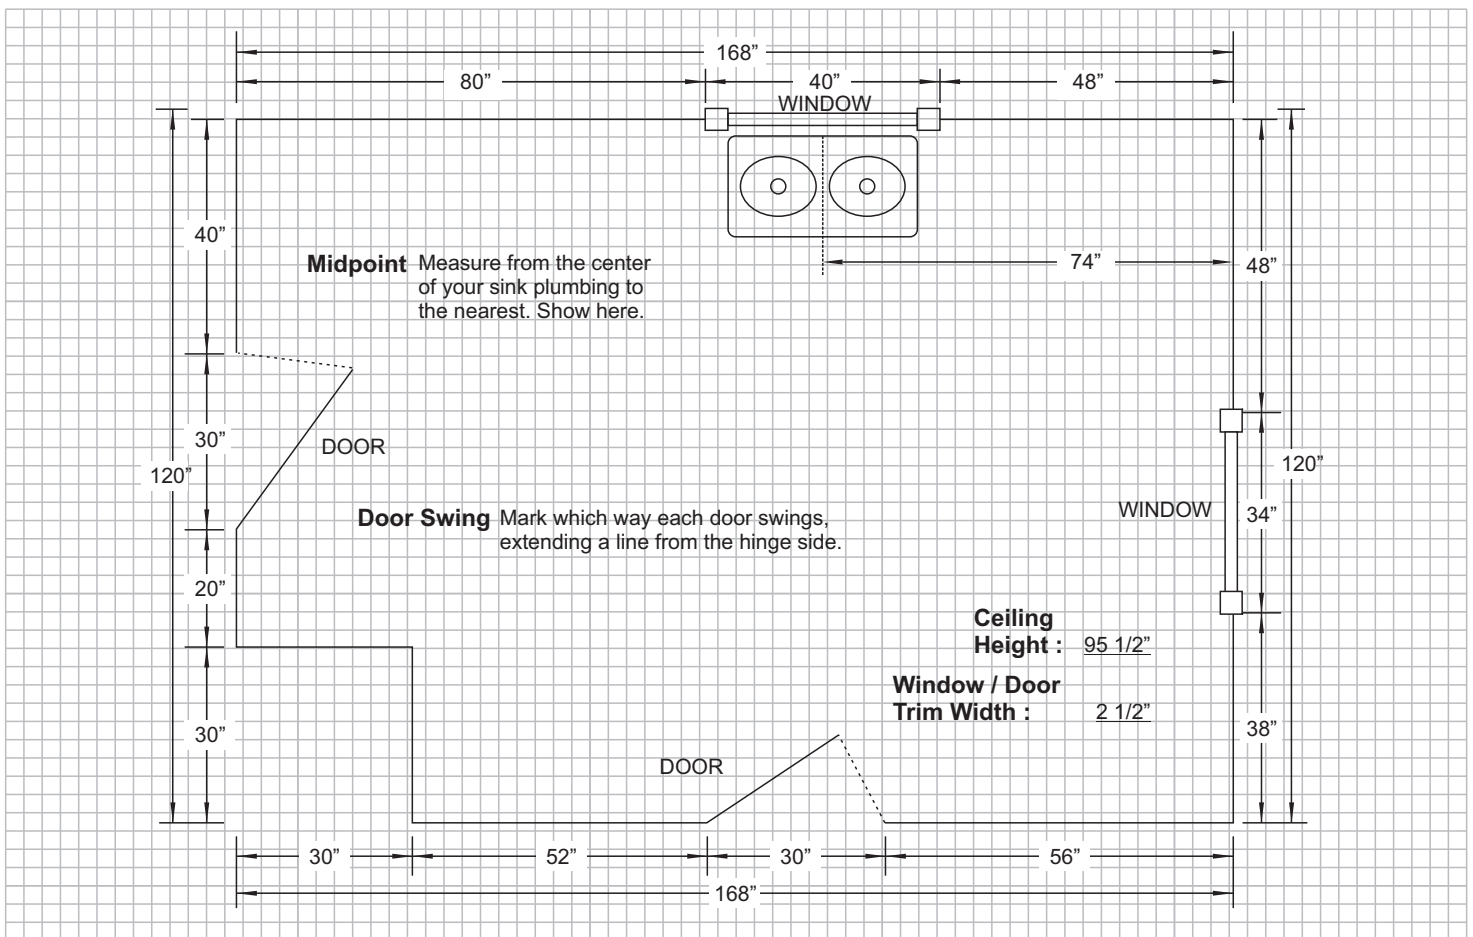

Measure the sink window wall first. Start in the corner. Measure (to the 1/4 inch) to the edge of the window trim.

### Windows and Doors

Mark in width from outside of trim to outside of trim.

### Continue...

Working clockwise, record all measurements of the room, noting any "breaks" like doors, offsets, etc.

1. Make sure total on each wall equals separate dimensions.
2. Note overall height of windows.

IN ORDER TO SERVE YOU BEST, PLEASE FILL IN AS MUCH INFORMATION AS POSSIBLE. BRING MEASUREMENTS, THIS FORM, AND ANY OTHER INFORMATION, PICTURES, ETC THAT WILL HELP US DESIGN YOUR PERFECT KITCHENS.
